It is with proud and pleasure to present to you the first brochure on New Nordic Water World Phuket. The development of tourism in Thailand is for many years the key success of the economy to this exotic country. The island of Phuket has always played a key role in the great result of being a holiday destination.

New Nordic WISTONN

The New Nordic Group has for soon 10 years developed and constructed buildings in Pattaya and beyond. Our units vary according to concept and location, but we always stay true to our core values. Thus, you should always be able to recognize a New Nordic project when you see one.

We always keep the apartment as our main focus

At the New Nordic Group we have a wide range of different investment offers, from our rental guarantee to the cash back option. However, we never lose track of what is the most important: the unit itself. Our main concern is always to deliver high quality buildings with good construction work at its core. Because of this New Nordic has been working with the same construction company since the start up, which means that they are always on site and still very much connected to the project. As a result of this close cooperation, we are also able to finish our buildings within the said construction period with very few exceptions.

We keep it real

New Nordic is one of the few developers that never spend a lot of time and money on show rooms, big banners and fancy parties. We would rather like to spend the money on the buildings itself, to make sure you get the best possible unit delivered at the end of the construction period.

We believe that it should be easy to purchase a unit

New Nordic believes that by making it easy for our customers to invest, we make it easy for ourselves. We therefore do everything we can to make the process of purchasing as simple as possible, while at the same time ensuring that everything is handled in a professional and correct manner. As a part of this, the New Nordic Group and our agents all operate with the same set of prices to make sure that you can use your preferred agent without having to worry about what is the cheaper option.

We believe that communication is key

We want you to feel as a part of the project and that you always get feedback on what is happening with your unit. We therefore send out weekly newsletters and construction updates from all our projects.

We believe in communities

When we create a project, we do not only create a unit and a bed – we want to create a community. When purchasing a unit with us you become a part of this orange community, with 24-hours information desks always on standby, a team of engineers ready to assist if you experience any problems, a dedicated IT team providing you with the newest IT services and gardeners taking care of the common facilities.

We do not only depend on one market

New Nordic has been paying our customers their rental guarantee on time every month since the start up (only with a few days delay in case of Thai holidays and Sundays when the banks are closed). New Nordic has 7 resorts in Pratamnak alone, all focusing on different market segments and types of customers. We also have sales teams for our accommodation department located in Bangkok, Pattaya and Norway. This way, we are not vulnerable to the economy of one country, the travel patterns of some type of customers or the performance of a few key staff.

We want to give our customers a wide range of options

We understand that all people are different, and are interested in different types of units, interior and concepts. We therefore offer our customers concepts in different locations and also projects of different style from the VIP projects such as Castle and Palace to the spacious villas in Chumphon.

We always have your back

Over the years New Nordic has developed a strong apparatus of people from different backgrounds and nationalities. Thai and foreigners are working together every single day to make sure that we have a strong team across our different departments, ranging from accommodation and food & beverage to IT, designing and New Nordic transport. We even have our own legal department!

THE RECIPE FOR SUCCESS

The New Nordic Group has developed more than 70 projects in Thailand, but our projects are about so much more than the building itself. When developing a new project all our teams come together to create the vibrant orange feeling we need to be able to name it a "New Nordic project". Here is a small overview of the teams involved.

THE NEW NORDIC CONSTRUCTION TEAM

The New Nordic Group has worked together with the same construction company since the very beginning, and this company is dedicated solely to the New Nordic projects. As a result, the construction company is on site with a big team of workers every day to ensure that any follow-ups or additional touch ups to any buildings can be done. With weekly meetings with the management we ensure that every step of the construction work for our projects is followed up closely.

THE NEW NORDIC ENGINEER TEAM

In addition to working closely with our construction company, New Nordic also has its own engineer team with more than 20 staff. They are on site to assist and follow up all construction sites and smaller works on our buildings. They work on a 24-hours schedule to ensure that there always is someone present to assist if experiencing any urgent problems.

THE NEW NORDIC LEGAL TEAM

The main priority for New Nordic is to ensure that our customers get their title deeds as soon as possible, while at the same time ensuring that we follow the correct procedures and ensure that everything is done in the right manner. We therefore have developed our own legal team with many years of experience in this field.

THE NEW NORDIC FOOD & BEVERAGE TEAM

New Nordic has currently more than 10 restaurants and bars in the Pratamnak area alone, ranging from our pool bars and breakfast restaurants to our Chinese Restaurant and our restaurant New Nordic Steaks, Grill and Winery serving fine dining 24 hours a day. We have a big F&B team from the best hotels and resorts in Thailand and beyond developing and operating these outlets.

THE NEW NORDIC ACCOMMODATION TEAM

New Nordic has many hotels and resorts across Thailand, and we also assist in operating the condominiums for our owners because we know that it is good to know someone is taking care of your property if staying away for a longer period of time. With our own reception team, housekeeping team and guest relation managers we ensure that you are always taken well care of, and the same is your apartment.

SUCCESS

THE NEW NORDIC RETAIL TEAM

Our retail spaces makes up a huge part of the New Nordic community, ranging from the massage shop only a short walk from your apartment, to the convenient minimart on the corner and the laundry down the street. New Nordic has its own department ensuring that our retail spaces gets top priority and is developed according to the vision and customer needs of each project.

THE NEW NORDIC TRAVEL TEAM

The New Nordic Group has in total four travel agencies, based in both Thailand and Norway. Our committed team are here to develop unique and exciting packages for travellers from all over the world so they can easily get to experience the unique and hidden treasures of South Eastern Asia. Every year they organize group tours to our projects to join our Golf Tournaments, Music Festivals, Introduction Classes with yoga teachers and more.

THE NEW NORDIC IT TEAM

We know that in 2017 it is important to stay connected wherever and whenever. The New Nordic Group therefore has our own IT team that works 24 hours, ready to assist if there every is any problems with your wi-fi or cable TV. In all our projects we give you fibre optic Internet, cable TV and free Wi-Fi!

THE NEW NORDIC PR AND EVENTS TEAM

New Nordic has its own group of people dedicated to put together events and happenings throughout the year in our New Nordic Communities. Every year they set up a big Music Festival and a Golf Tournament, and they also have dance classes, weekly live music, special promotions and more for our residents and guests to enjoy. At New Nordic you can always find something to do!

THE NEW NORDIC SECURITY TEAM

Thailand is a very safe country, but to ensure that the residents and guests in the New Nordic villages never experience any problems we have our own Security Team taken care of all projects and common areas. They are ready to assist if you have anything to report, help you with your luggage and give you a friendly smile. They also have CCTV cameras installed in all buildings.

NEW NORDIC HOTELS & RESORTS

New Nordic offers luxurious apartments and rooms surrounded by swimming pools, tropical gardens, park facilities and numerous common areas. This wide range of units combined with New Nordic sale team in Bangkok, Pattaya and Europe, as well as having two travel agencies, gives us a unique position in the market to fill our rooms.

PHUKET

Spectacular nature, stunning tropical sunsets and warm blue water awaits you in the largest island in all of Thailand. This fun, yet relaxing island makes for the perfect combination of white beaches, endless facilities, shops and activities, great cuisine and a variety of good accommodation spaces! Also known as the Pearl of the South, no wonder this is Thailand's most visited tourist attraction!

PHUKET CLIMATE

During the whole year Phuket keeps its bright sun shining, still there are periods with more sun others and of course, the rainy season. Around the beginning of March until the beginning of May is considered the hot season, where the climate is exceptionally dry and the sun is very hot.

Between May and October is a very nice time to travel, but the bad weather start to show itself during this time and leading up to the rainy season. The months just before and after December is considered the high season and it's when the most tourists are traveling to Phuket to enjoy the sun.

How to get around?

Tuk-tuks can be found all over Phuket, although they tend to be clustered in large numbers around Patong. Tuk-tuks are small red vans that can carry about five passengers. They are 4-wheeled as opposed to the 3-wheeled version found in Bangkok.

PHUKET BEACH AREAS

BANANA BEACH

Despite the big rise in tourism, Banana Beach is still one of the most beautiful beaches on the island. The water is exceptionally clean, clear and perfect for swimming. The beach is also known for its different rock formations surrounding the area and it's often referred to as the Banana Rock Beach.

FREEDOM BEACH

Even though Freedom Beach is the least accessible beach in Phuket, many travellers say it is the best one in the area. Unless you are willing to fight through thick jungle, the beach is only accessible by boat. Since it's harder to reach, it will also be fewer tourists here, and as the name suggests: more freedom.

NAI HARN BEACH

This beautiful beach is never as crowded as the most popular beach destinations in Phuket, so here you can come to enjoy some proper relaxation without being surrounded by other people. This beach also offers chairs, as well as drink vendors selling everything from a cold beer to fresh coconut.

NAI THON BEACH

With the entire beach being surrounded by casurina trees, the Nai Thon Beach is well worth the visit. Offering some of the finest sand in all of Phuket, here you can relax like no other and swim through clear blue water. They say the beach is made up of golden sand that almost squeaks as you're walking over it.

ISLAND NEAR BY PHUKET

There are so many islands near Phuket, big and small, it would take forever to visit them all. Most are not far and you should really consider adding a couple of islands to your trip. These are just few islands we had the chance to visit and we will be adding more as we travel around.

Coral Island

Coral Island (Koh Hae) is situated 10 km south of Phuket. The island is surrounded by multicolored coral reefs, hence the name Coral Island. The island has two long stretches of white, sandy beach with crystal clear water with plentiful of tropical fishes waiting to be fed, and a few quiet bays on the other side. A short trek over the small hill and rocks leads to a small quiet cove with a beautiful beach, an excellent hideaway during the day. Sea activities as scuba diving, banana boat rides, parasailing and sea-walking are available on the island.

Phi Phi Island

First time in Phuket? Phi Phi Islands is a must for first timers. It is the topic of conversation for travellers all over Thailand. A Phi Phi Island tour is the most popular activity in the region. Phi Phi Islands are situated 40 km south-east of Phuket and consist of six islands. The major ones being Phi Phi Don, which hosts the bohemian town of Phi Phi Islands, and Phi Phi Leh with Maya Bay which featured in the movie "The Beach". Phi Phi Islands are famous for its limestone cliffs rising sheer out of the emerald green waters, white powdery beaches and its many coral reefs offering great diving and snorkeling.

Similan Island

Similan Islands are located just 84 km northwest of the bustling crowds of Phuket. Koh Similan is one of the best-known island groups in the Andaman Sea, largely because of the wonders that wait beneath the clear blue waters that surround it. Generally counted among the 10 most interesting dive areas in the world, this little archipelago has also become a favourite destination for yachts and tour boats.

Koh Yao Island

Koh Yao Noi and Koh Yao Yai are a pair of large islands in the middle of Phang Nga Bay, equidistant to Phuket and the Krabi mainland. While the pace of development is accelerating on Koh Yao Noi in particular, the islands remain a quiet refuge that feels far removed from the crowds of Phuket. Other activities available on the island include agricultural demonstrations (rubber and fishing), kayaking, hiking, snorkelling and swimming.

LAGUNA GOLF PHUKET

Laguna Golf Phuket is an 18-hole, par 71 award-winning golf course, set within the world renowned Laguna Phuket Resort. The skillfully designed golf course provides the perfect golf experience for players of all abilities. Many outstanding natural features can be found on site including large native Banyan Trees and natural water features – often inundated with water lilies and wildlife.
